Astro_up_AA MF

metal ion transmembrane transporter activity		channel activity		passive transmembrane transporter activity		monoatomic ion channel activity		ionotropic glutamate receptor binding		
sodium ion transmembrane transporter activity		voltage-gated sodium channel activity		inorganic anion transmembrane transporter activity		voltage-gated channel activity		voltage-gated monoatomic ion channel activity		GABA receptor activity
		metal ion transmembrane transporter activity		secondary active transmembrane transporter activity		transmitter-gated channel activity		transmitter-gated monoatomic ion channel activity		
monoatomic cation channel activity		transmembrane transporter activity		transmembrane transporter activity		symporter activity		calcium ion transmembrane transporter activity		clathrin binding
		gated channel activity		GABA-gated chloride ion channel activity		voltage-gated monoatomic cation channel activity		delayed rectifier potassium channel activity		
sodium channel activity		monoatomic anion transmembrane transporter activity		extracellular ligand-gated monoatomic ion channel activity		potassium ion transmembrane transporter activity		potassium ion transmembrane transporter activity		myosin V binding
		channel regulator activity		calcium ion sensor activity		molecular sensor activity		ion channel regulator activity
