plasma membrane

Inhib_M_down BP

activation of immune response	immune response-activating signaling pathway	immune response-regulating cell surface receptor signaling pathway	immune response-regulating signaling pathway	sphingomyelin biosynthetic process
antigen receptor-mediated signaling pathway	negative regulation of antigen receptor-mediated signaling pathway	negative regulation of immunoglobulin production	negative regulation of production of molecular mediator of immune response	sphingomyelin metabolic process
immune response-activating cell surface receptor signaling pathway	negative regulation of B cell receptor signaling pathway	regulation of B cell receptor signaling pathway		negative regulation of calcium-mediated signaling
positive regulation of cholesterol efflux	positive regulation of cholesterol transport	positive regulation of cholesterol transport	regulation of cholesterol efflux	xenobiotic transmembrane transport
