cell body membrane

cell body membrane

neuronal cell body membrane

external side of
plasma membrane

Inhib_down_M BP

activation of immune response	immune response-activating signaling pathway	immune response-regulating cell surface receptor signaling pathway	immune response-regulating signaling pathway	sphingomyelin biosynthetic process
antigen receptor-mediated signaling pathway	negative regulation of antigen receptor-mediated signaling pathway	negative regulation of immunoglobulin production	negative regulation of production of molecular mediator of immune response	sphingomyelin metabolic process
immune response-activating cell surface receptor signaling pathway	negative regulation of B cell receptor signaling pathway	regulation of B cell receptor signaling pathway		negative regulation of calcium-mediated signaling
positive regulation of cholesterol efflux	positive regulation of cholesterol transport	positive regulation of sterol transport	regulation of cholesterol efflux	xenobiotic transmembrane transport

Inhib_down_M MF

dipeptidase activity

metallodipeptidase activity

metallodipeptidase activity

carboxypeptidase
activity

CD4 receptor binding

immunoglobulin binding

ABC-type xenobiotic
transporter activity

ABC-type xenobiotic transporter activity

xenobiotic transmembrane
transporter activity

ABC-type
transporter
activity

sialic acid binding

Inhib_up_ALL CC

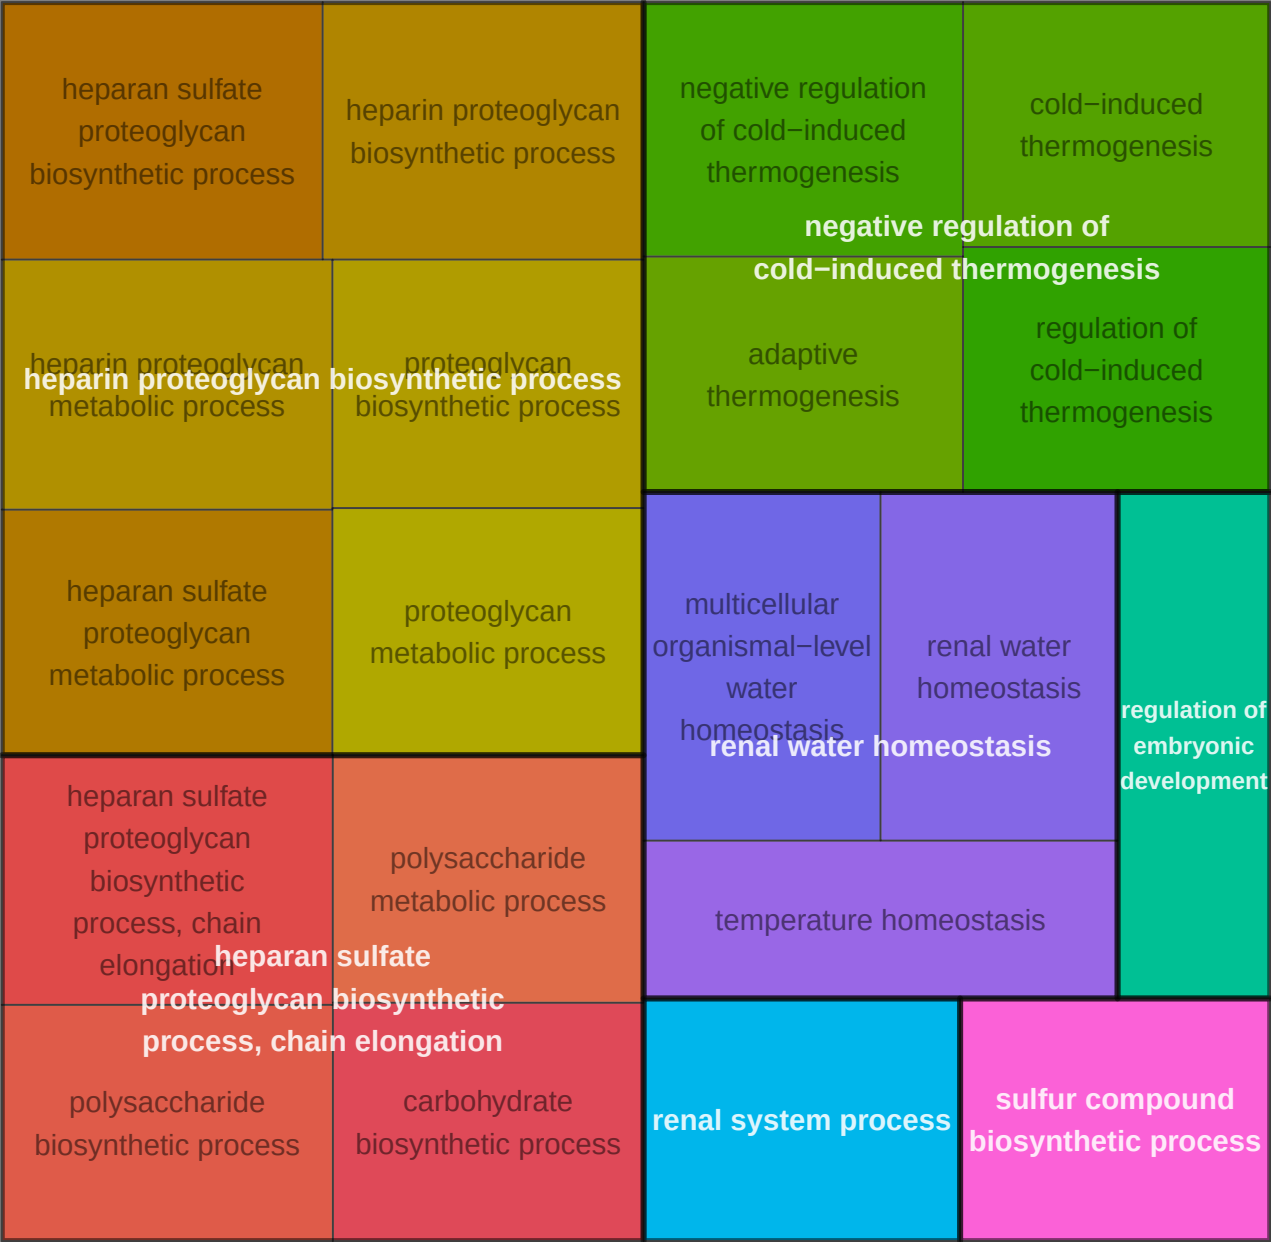

apical cortex

apical cortex

cell cortex region

myosin complex
