anterograde neuronal dense core vesicle transport	dense core granule transport	regulation of synaptic vesicle transport	synaptic vesicle cytoskeletal transport	negative regulation of axon extension	negative regulation of axonogenesis	negative regulation of protein polymerization	negative regulation of microtubule polymerization	negative regulation of microtubule polymerization or depolymerization	regulation of microtubule polymerization
anterograde synaptic vesicle transport	regulation of synaptic vesicle transport along microtubule dense core	synaptic vesicle transport	vesicle transport along microtubule	negative regulation of axon extension			negative regulation of microtubule polymerization		
dense core granule cytoskeletal transport	granule localization	synaptic vesicle localization	establishment of vesicle localization	negative regulation of protein-containing complex assembly	negative regulation of cell projection organization	regulation of protein polymerization	regulation of microtubule polymerization or depolymerization	regulation of microtubule cytoskeleton organization	
anterograde axonal transport	axo-dendritic transport	cytosolic transport	positive regulation of intracellular transport	calcium ion transport into cytosol	regulation of extent of cell growth	positive regulation of cytosolic calcium ion concentration	axon extension	neuron projection extension	negative regulation of growth
axonal transport	organelle transport along microtubule	regulation of calcium ion transmembrane transport	transport along microtubule	calcium ion transport into cytosol			negative regulation of developmental growth		
regulation of release of sequestered calcium ion into cytosol	calcium ion transmembrane import into cytosol	regulation of calcium ion transport		regulation of axon extension	regulation of cell size	regulation of synaptic plasticity	negative regulation of cell growth	developmental cell growth	developmental growth involved in morphogenesis
regulation of microtubule binding	regulation of calcium ion transmembrane transporter activity	regulation of protein binding	regulation of monoatomic ion transmembrane transporter activity	negative regulation of sequestering of calcium ion	release of sequestered calcium ion	maintenance of location in cell	exploration behavior		
regulation of ryanodine-sensitive calcium release channel activity	regulation of calcium ion transporter activity	regulation of transmembrane transporter activity	regulation of binding	sequestering of calcium ion	of calcium ion	maintenance of location	exploration behavior learning		
negative regulation of protein binding	negative regulation of binding	regulation of transporter activity		central nervous system neuron development	negative regulation of nervous system neuron differentiation	central nervous system neuron differentiation	regulation of organelle transport along microtubule		
				neuron development	regulation of neurogenesis	regulation of cell development	neuromuscular process controlling balance	neuromuscular process controlling balance
