

Inhib~Sp09D09_down_ALL CC

Inhib~Sp09D09_down_ALL BP

L5~Sp09D03_up_ALL MF

methylated histone binding

methylated histone binding

methylation-dependent
protein binding

histone binding

modification-dependent protein binding

carbohydrate binding

**transcription
corepressor activity**

L6~Sp09D04_down_ALL BP

L6~Sp09D04_down_ALL MF

L6~Sp09D04_up_ALL BP

Vasc~Sp09D08_down_ALL BP

axon ensheathment in
central nervous system

central nervous
system myelination

ensheathment
of neurons

positive
regulation of G
protein-coupled
receptor
signaling pathway

oligodendrocyte differentiation

axon ensheathment

myelination

oligodendrocyte
differentiation

sarcomere
organization

protein localization to axon

muscle cell cellular homeostasis

Vasc~Sp09D08_down_ALL MF

dipeptidase activity

metalloexopeptidase activity

dipeptidase activity

carboxypeptidase activity

peptidase activity

Vasc~Sp09D08_up_ALL CC

asymmetric, glutamatergic,
excitatory synapse

asymmetric, glutamatergic, excitatory synapse

cerebellar climbing fiber
to Purkinje cell synapse

FAR/SIN/STRIPAK complex

axon initial segment

axon initial segment de of Ranvier

semaphorin receptor complex

Vasc~Sp09D08_up_ALL BP

facial nerve development		trigeminal nerve development		trigeminal nerve morphogenesis	
facial nerve morphogenesis		trigeminal nerve structural organization		preganglionic parasympathetic fiber development	
facial nerve structural organization		parasympathetic nervous system development		sympathetic nervous system development	
anterior commissure morphogenesis	branchiomotor neuron guidance	anterior commissure morphogenesis		cranial nerve structural organization	anatomical structure arrangement

WM-uf~Sp09D07_down_AA CC

signal recognition particle

signal recognition particle

signal recognition particle,
endoplasmic reticulum targeting

WM-uf~Sp09D07_down_AA MF

cyclin-dependent protein kinase activity

cyclin-dependent protein kinase activity

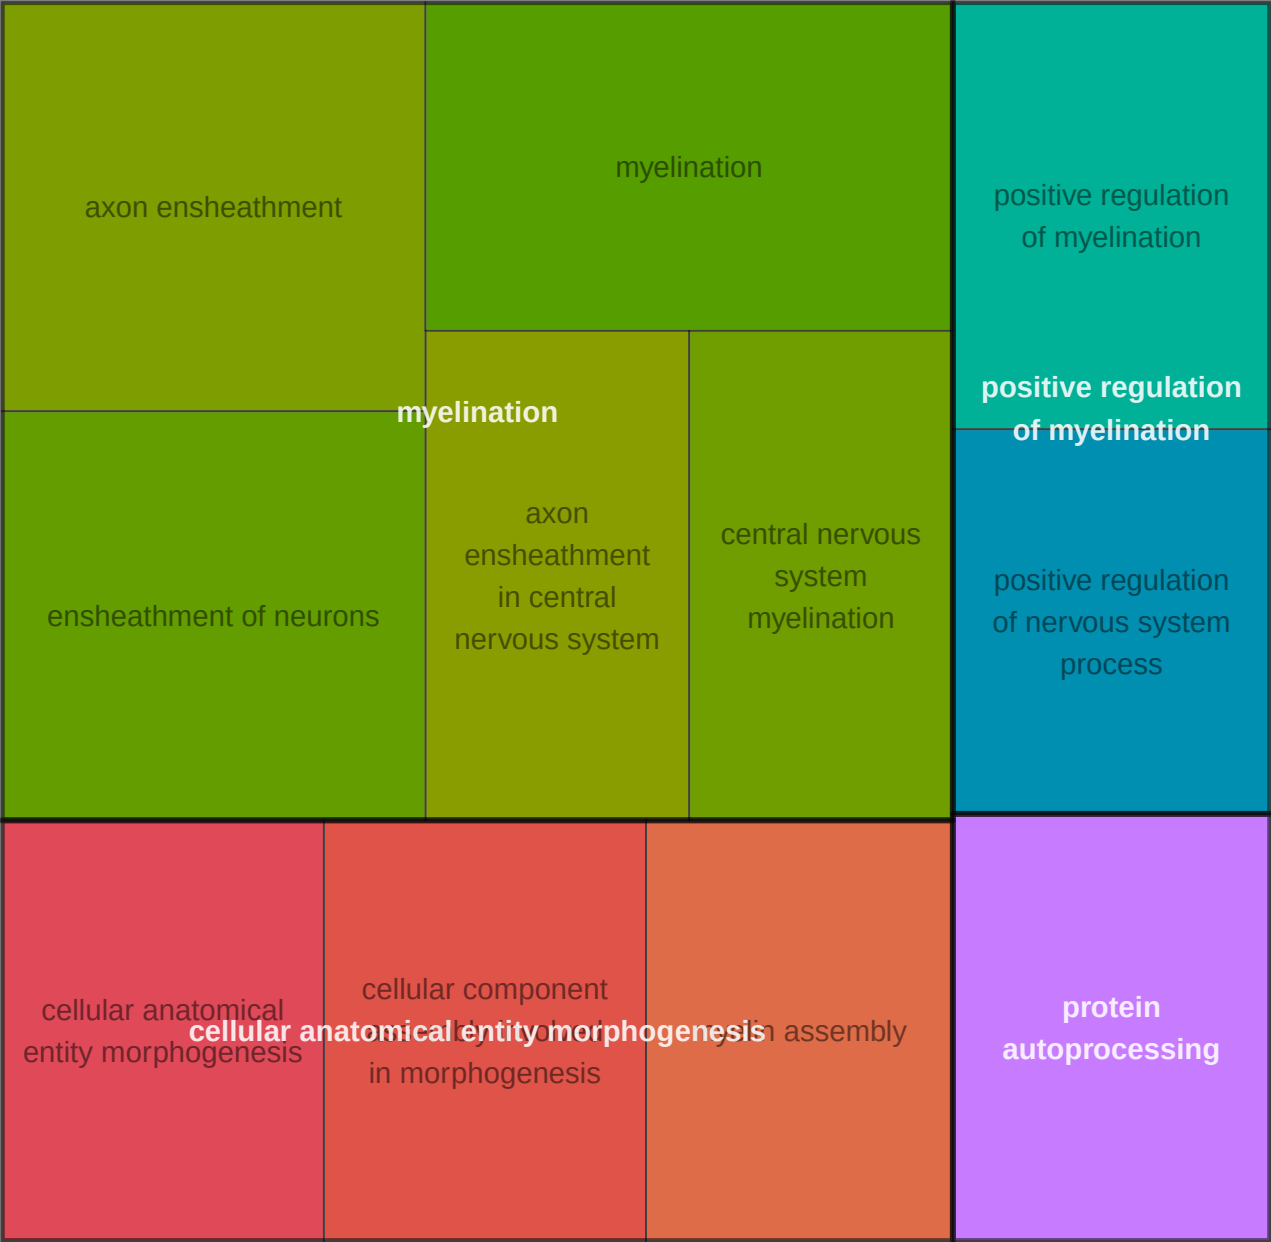

cyclin-dependent protein
serine/threonine kinase activity

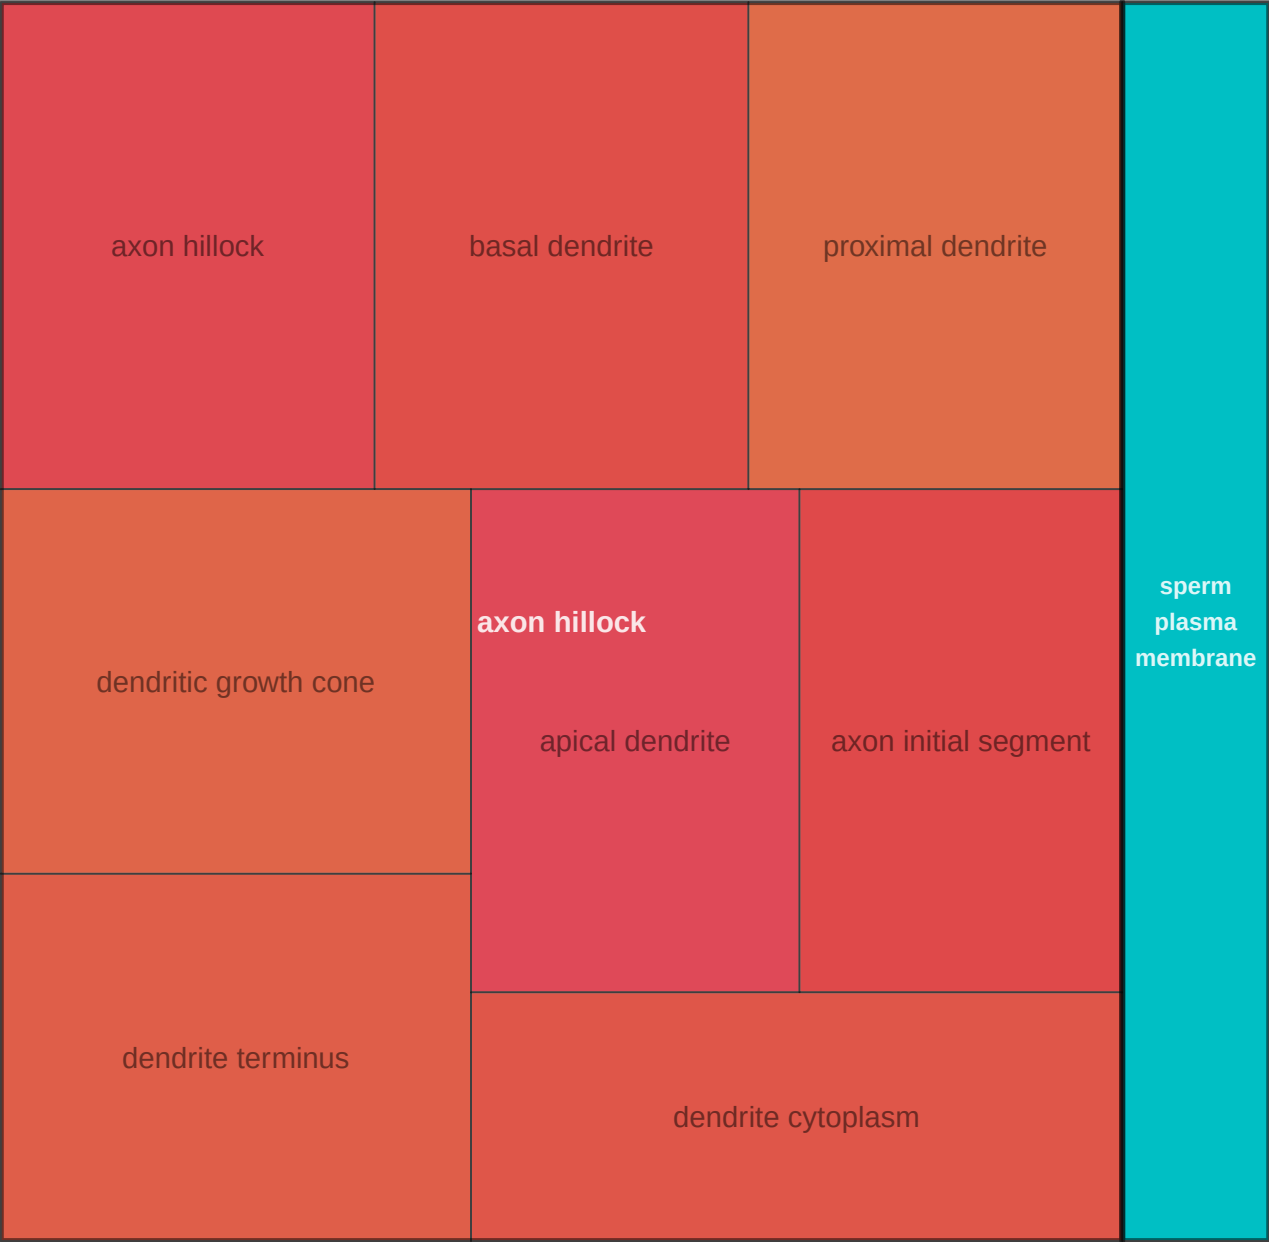

signal recognition particle binding

carbohydrate transmembrane
transporter activity

7S RNA binding

WM-uf~Sp09D07_down_ALL BP

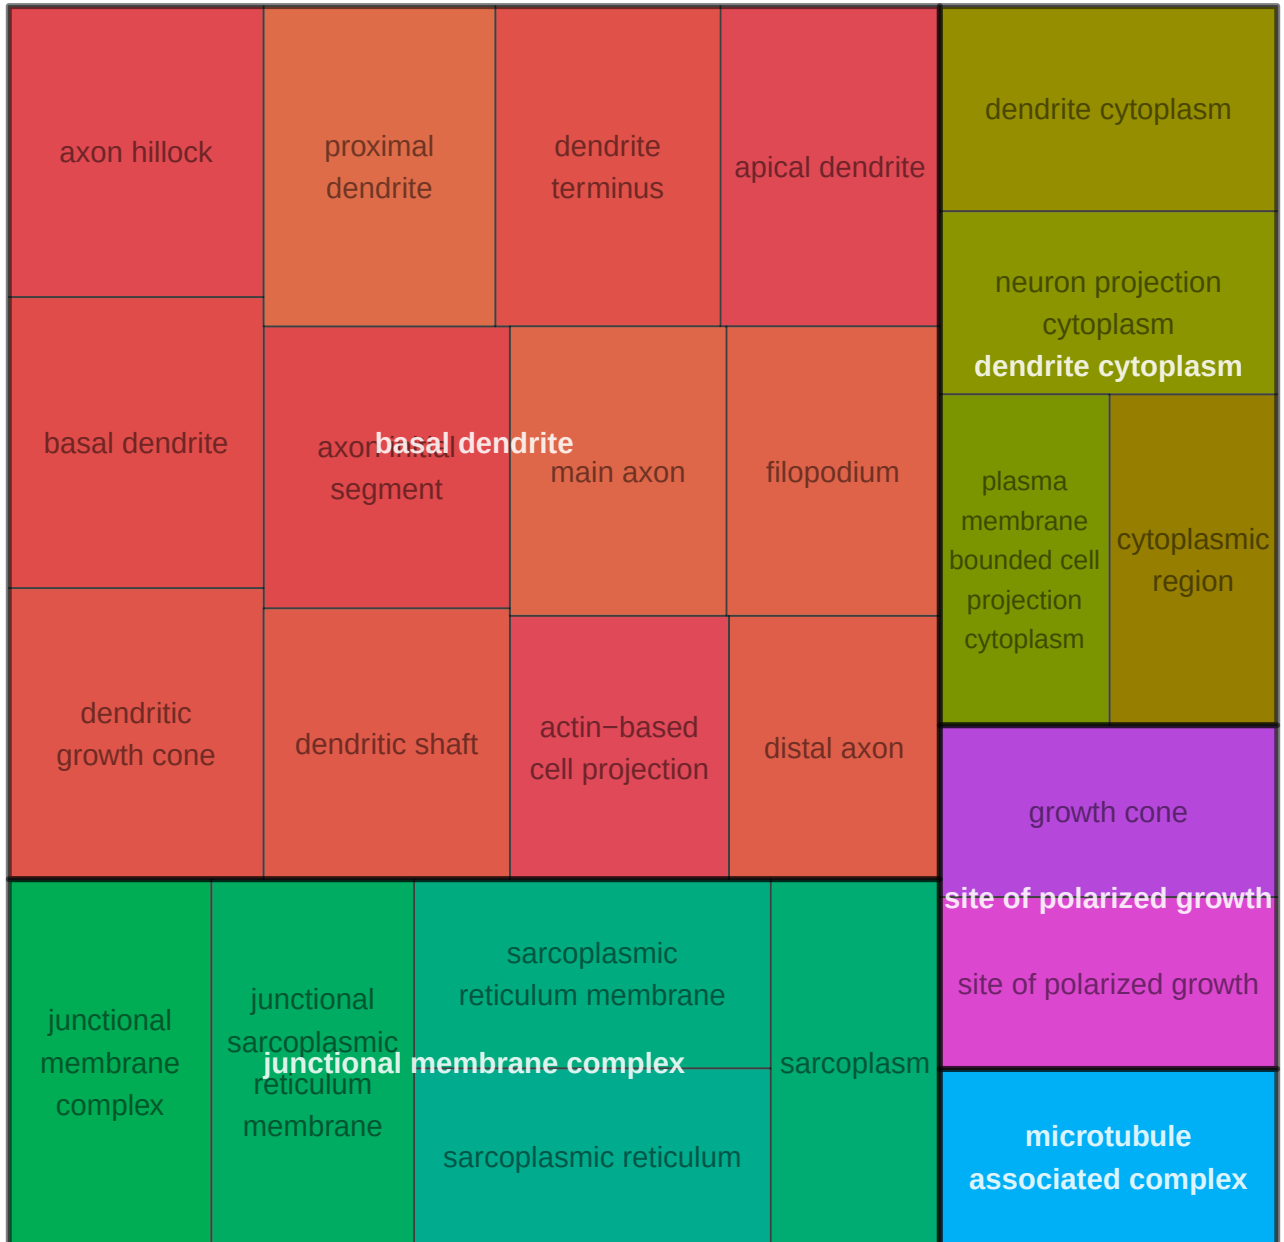

WM-uf~Sp09D07_up_AA MF

WM-uf~Sp09D07_up_ALL CC

WM-uf~Sp09D07_up_ALL BP

anterograde neuronal dense core vesicle transport	dense core granule transport	synaptic vesicle cytoskeletal transport	synaptic vesicle transport along microtubule	negative regulation of axon extension	negative regulation of axonogenesis	negative regulation of protein polymerization	negative regulation of microtubule polymerization	negative regulation of microtubule polymerization or depolymerization	regulation of microtubule polymerization
regulation of synaptic vesicle transport anterograde synaptic vesicle transport	dense core granule localization secretory granule localization	vesicle transport along microtubule	vesicle cytoskeletal transport	negative regulation of neuron projection development	negative regulation of axon extension		negative regulation of microtubule polymerization		
dense core granule cytoskeletal transport	synaptic vesicle transport	synaptic vesicle localization	establishment of vesicle localization	negative regulation of protein-containing complex assembly	negative regulation of cell projection organization	regulation of protein polymerization	regulation of microtubule polymerization or depolymerization	regulation of microtubule cytoskeleton organization	
anterograde axonal transport	axo-dendritic transport	cytosolic transport	positive regulation of intracellular transport	calcium ion transport into cytosol	regulation of axon extension	regulation of extent of cell growth	axon extension	neuron projection extension	negative regulation of growth
regulation of release of sequestered calcium ion into cytosol	organelle transport along microtubule	regulation of calcium ion transport	regulation of calcium ion transport	calcium ion transport into cytosol		regulation of cell size	negative regulation of developmental growth	developmental cell growth	developmental growth involved in morphogenesis
axonal transport	calcium ion transmembrane import into cytosol	transport along microtubule	cytoskeleton-dependent intracellular transport	negative regulation of sequestering of calcium ion	release of sequestered calcium ion	maintenance of location in cell	positive regulation of vesicle transport along microtubule		
regulation of microtubule binding	regulation of calcium ion transmembrane transporter activity	regulation of protein binding	regulation of monoatomic ion transmembrane transporter activity	regulation of sequestering of calcium ion	regulation of sequestering of calcium ion	maintenance of location	positive regulation of vesicle transport along microtubule		
regulation of ryanodine-sensitive calcium-release channel activity	regulation of transporter activity	regulation of transmembrane transporter activity	regulation of binding	central nervous system neuron development	negative regulation of nervous system neuron development	central nervous system neuron development	exploration behavior	memory	neuromuscular process controlling neuromuscular process
negative regulation of protein binding	negative regulation of binding	regulation of transporter activity	regulation of binding	dendrite morphogenesis	negative regulation of neurogenesis	negative regulation of cell development	learning		neuromuscular process
